25 YEAR RE-REVIEW

SECRET

25X1 with the trailer entered the installation. On 19 February, 25X1 prime movers each towing a 203-mm howitzer, and prime mover with trailer left the in-25X1 stallation toward Goerden and returned at about 3 p.m. on 25X1 20 February. On 20 February, prime movers each towing a 280-mm howitzer, prime movers 25X1 the latter with trailer \_end truck with the trailers were seen moving out of the installation toward Goerden. The column with four 280-mm howitzers returned to the installation at about 3 p.m. At about 9 a.m. on 23 February, about 360 troops marched to the memorial monument. From 24 to 27 February, troops drilled with 25X1 and without gas masks in the billeting area. 4. On 27 February, the Infanterie Kaserne was occupied by about 800 troops who wore red-bordered black epaulets with artillery, motor transport and signal insignies. About 400 troops assembled in the barracks yard at 9 a.m. on 23 February. Truck 25X1 loaded with wreaths, entered the installation. On 24 February, about 40 soldiers practiced with 6 x 37-mm AA guns in the barracks yeard on 24 February. Eight x 37-mm AA guns stood in front of the garages on 26 February. 25X1 25X1 Comment. Trains of the 20th Army AT Arty Brig (US) from the Flak Kaserne and Infanterie Kaserne as well as of the 63d Gds Tank Regt of the 10th Cds Tank Div from the Pionier Kaserne which were previously reported and are again confirmed by the present report. 25X1 Comment. The report again confirms the units of the 124th Hv How Arty Brig (US) with the 203-mm howitzers in the Generalfeldzeugmeister Kaserne. 25X1 So far, no 280-mm howitzers have been observed with the brigade and, 25X1 cannot be carried with the brigade. The 122-mm field 25**X**1 nowitzers have been observed in the installation for a long time. 25**X**1 It is possible that the howitzers belong to the abovementioned brigade but it could not be determined whether they were used only for training purposes. 25X1 Comment. The Infanterie Kaserne has hitherto been carried as quartering elements of the 20th Army AT Arty Bris (US) to 25X1 which the six 37-mm AA guns also belong. The number of 37-mm AA guns mentioned in the mesent report cannot be accounted for. 25X1 25X1
